14 FEBRUARY — 12 OCTOBER 2014

FREE ENTRY

Picturesque Moreton Bay — Aboriginal name Quandamooka — conjures up images of sandy beaches, fishing trips and marine life but the beauty of the Bay is not just skin deep. Few know the rich and diverse history of this natural treasure located on Brisbane's doorstep.

Visitors to *The many lives of Moreton Bay* will discover an intriguing story of endless transformations — from leper colony to wilderness retreat, from whaling station to marine sanctuary. Tales of shipwrecks sit alongside stories of lazy days spent fishing and the memories of those who have lived their lives amidst the Bay's wild beauty.
